Minutes

- We took the register.
- We discussed what we had achieved so far and then read our last set of meeting notes.
- We decided we needed to have regular meetings to make sure things were being done. Friday afternoons was the best time for all of us and for Mrs Nicholson to take note of our ideas.
- We checked to see if we all had our badges on but some were still missing so Emily will write a letter to help us remember.
- We decided we needed our own ECO Code. Emily said the poster we had seen was an acrostic poem so we chose the word 'World'.
- We all worked together to get some ideas

Wise Owl says 'Laugh, Listen, Learn'

- **W**alk to School and help the environment.
- **O**ur oceans are important, we need to keep them plastic free.
- **R**educe, Reuse and recycle your waste.
- **L**et the sun in; lights off; blinds up.
- **D**on't drop your rubbish, put it in the bin.

We all need to work together to help save our planet.

- We decided we would all help write our ECO code and illustrate it with pictures.
- Mrs Nicholson asked us a question about our school uniform and what happens when it doesn't fit anymore. Nola said 'it just gets dumped', Emily said 'my mum takes it to the charity shops'. We thought about letting our families know how we can Reuse and Recycle.
